Place2Be is a charity working in schools to improve the confidence and wellbeing of children.

How Place2Be works – There is a special Place2Be room inside Forest Academy where children can go to express and think about their worries, through talking, creative work and play. Trained adults called School Project Managers support this process, helping children to find new ways of coping with difficulties so they don't get in the way of friendships or learning.

Times when we're especially useful - There are times when children feel particularly sad, confused, fearful or angry, due to family problems such as separation or illness, or even the death of a much-loved pet. Some may become withdrawn; others may become demanding or challenging in their behaviour: that's when having Place2Be in Forest Academy is especially helpful.

How we help children – Place2Be works with children one-to-one and in small groups, offering regular time-tabled support for those who will benefit most. All pupils can find help with friendship issues and other worries by choosing to visit Place2Talk. Short lunchtime sessions are open to individuals and to groups.

How we help families – We routinely meet with parents to discuss their worries about their children. A number of Place2Be schools including Forest Academy also have A Place for Parents, offering adults support with any issues affecting their parenting and/ or their relationship with their children.

Any questions? – You are welcome to talk to the Place2Be School Project Manager - **Jacqueline Reid**, either face-to-face or via telephone or email. She is available on Mondays, Tuesdays or Wednesdays.
